*The
Annual Awards
Testimonial Dinner*

Honoring

*Ambassador
Richard Helms*

Washington, D. C.

20 May 1987

Ambassador Richard Helms

Richard McGarrah Helms was born in St. David's, Pennsylvania. He graduated from Williams College in 1935, having been elected to Phi Beta Kappa in his junior year. Shortly after graduation, Mr. Helms joined the United Press in London as a staff correspondent. Three months later he was transferred to the Berlin Bureau where he remained until 1937. That year he resigned from the United Press, returned to the United States, and went to work for Scripps-Howard at the *Indianapolis Times*.

Following the attack on Pearl Harbor he resigned from the newspaper and applied for a commission in the United States Naval Reserve, entering on active duty July 1, 1942 as a Lieutenant, (jg). After assignment to the Commander, Eastern Sea Frontier in New York, Mr. Helms was transferred in August, 1943 to the Office of Strategic Services in Washington, the war-time intelligence agency for the U.S. He served with OSS in Washington as well as in London, Paris, Wiesbaden and Berlin.

After receiving an honorable discharge from the Navy in 1946, Mr. Helms joined the successor organization to the OSS, later entering the Central Intelligence Agency on September 18, 1947, the day the doors opened. Mr. Helms rose through the ranks of the CIA to be appointed Deputy Director of Central Intelligence on April 28, 1965 and Director of Central Intelligence on June 30, 1966, both appointments having been made by President Lyndon B. Johnson. Mr. Helms was reappointed Director by President Richard M. Nixon in 1969. He served in that capacity until early February 1973 when he was confirmed by the Senate as Ambassador to Iran, a position in which he served until his retirement from the U.S. Government at the end of January 1977.

As Director of Central Intelligence, Mr. Helms was the senior intelligence officer of the United States Government and served as Chairman of the United States Intelligence Board. In these capacities he was also intelligence advisor to the President and to the National Security Council.

Ambassador Helms has continued his devoted service in the national interest as a member of the President's Commission on Strategic Forces. He is also chairing the Advisory Committee of the Nancy Reagan Drug Abuse Fund and is a member of the Board of Directors of the Middle East Institute.

In 1983, Mr. Helms was awarded the William J. Donovan Medal and subsequently during that same year received our country's highest recognition in the national security field, the National Security Medal, presented by President Ronald Reagan.

Recipients of the SASA Medal of Achievement

This evening, 20 May 1987, marks the fourth occasion on which the SASA Medal of Achievement has been presented to an individual whose service in support of the national intelligence endeavor has been of such an exceptional character as to merit special recognition. The Award Program was inaugurated in May 1984 when the first SASA Medal of Achievement was presented to Dr. William O. Baker, the former President and Chairman of the Board, Bell Laboratories, who has played a uniquely significant personal role in national security affairs for more than 30 years. The citation which accompanied his award proclaimed that the award was for "extraordinary service and exceptional accomplishments in support of the national intelligence endeavor. A staunch and vocal advocate of a strong U.S. Intelligence enterprise for many years, he has become one of its most valued architects. Few can match his record of distinguished, selfless service to our nation and his enduring contributions to our national security". In a special tribute to Dr. Baker, the SASA Board of Directors resolved that its Medal of Achievement would be henceforth designated "The William Oliver Baker Award".

In July 1985, the award was made to Senator Barry Goldwater. The Senator, who served in the U.S. Senate almost continuously between 1953 and 1986 has long been known for this staunch support of a strong national defense and the concomitant need for a strong national intelligence endeavor. He was the first Vice Chairman of the Senate Select Committee on Intelligence (1976-1980) and its Chairman (1980-1984). The citation which accompanied the award to Senator Goldwater read in part, "His steadfast defense and insightful support of U.S. Intelligence programs contributed vitally to the restoration of the former strength and viability of the national (intelligence) endeavor and thereby richly enhanced the security of our nation. The courageous leadership and record of accomplishments which have characterized his dedicated service in the national interest will long endure as an inspiration to all and are deserving of highest tribute".

Last year, on 21 May, Ambassador Vernon Walters became the third award recipient. After more than thirty-five years in the U.S. Army, during which he rose to the rank of Lt. General, Dick Walters continued his distinguished career as an Ambassador-at-Large and later as the U.S. Permanent Representative to the United Nations, a post which he currently holds. The citation which accompanied his award read in part "A devoted, skillful servant of the national interest throughout his long career, his remarkable accomplishments in the shadows of history are legend. Few others have more poignantly demonstrated the indispensability of the human element in the intelligence process".

Awards Dinner Program

7:00 p.m.

Reception

8:30 p.m.

Opening Ceremony

National Anthem

Invocation

Dinner

9:30 p.m.

Acting Director of Central Intelligence

Presentation of Award

The Honorable Richard Helms

Acceptance Remarks

10:15 p.m.

The Honorable John N. McMahon
Closing Remarks

After Dinner Refreshments

Music by Andre and Friends

The William Oliver Baker Award

Purpose

The award has been inaugurated by SASA in order to promote excellence in the quality of the intelligence and national security activities of the United States Government and associated endeavors in the private sector by recognizing exceptional achievement by individuals contributing to these affairs.

Eligibility

Members of the government, or private industry, and of the academic community are eligible to receive the award provided that a substantial portion of their professional activity is devoted to national security affairs. No time limit will be set for the period of such service as is being recognized.

Recipients of departmental or community awards are eligible for consideration but the Baker Award is not intended to duplicate in any way an existing award or award system. In the event that justification for a nomination rests primarily upon classified information, special arrangements will be made to accommodate it, but an unclassified version is required for the accompanying citation.

Selection Criteria

Awardees will be selected on the basis of the following:

- Sustained excellence in their contribution to national security affairs over a considerable period of time, or a single achievement of extraordinary merit.
- Contributions in the scientific and technical disciplines or in other fields essential to the enhancement of national security interests.
- Technical enhancements of unusual significance, management proficiency of a high order, or the development or application of techniques that permit cost savings of substantial magnitude.

Selection Procedures

Annually, the President of SASA will invite the departments and agencies of the Intelligence Community, the President's Foreign Intelligence Advisory Board and the Scientific, Industrial and Academic communities to nominate individuals considered best qualified for the award.

The nominations will be reviewed by an awards panel selected by the SASA Board of Directors. Representatives of the Secretary of State, Secretary of Defense, the PFIAB and the Director of Central Intelligence will be asked to participate with the SASA panel annually in the final selection of awardee/s.

Presentation

The awardee/s will be honored at an annual dinner meeting of the Association at which the "William Oliver Baker" medal will be presented.

About The Association

The Security Affairs Support Association (SASA) is chartered as a professional association by the State of Maryland. It was established in April 1979 to "enhance the relationships and understanding among those in government, industry and academe who are involved in and concerned with the well-being and success of the national intelligence endeavor".

Although only eight years have passed since its creation, SASA has become an active and useful force in the Intelligence Community. Satisfying a communication need long felt in the community, issues of interest to government and industry alike have been discussed in its forum. Key policy, operational and administrative issues of legitimate concern to its membership are being continually explored.

In 1984, SASA inaugurated its award program when the DCI presented the SASA Medal of Achievement to Dr. William Oliver Baker "for his enduring contributions to National Security and Freedom". The medal is now designated the William Oliver Baker Award and is presented annually to an individual from government, industry, or academe who has performed distinguished service in support of the national intelligence endeavor. Senator Barry Goldwater received the award in 1985 and Ambassador Vernon Walters in 1986. Tonight the award is being presented to Ambassador Richard Helms.

SASA continues to pursue its objectives of "enhancing relationships and understanding" among all who support the national intelligence endeavor through a series of symposia on topics of high current interest which include "Tactical Intelligence and Related Activities (TIARA), Software Trends in the Intelligence Community, Intelligence Support to NATO, INFOSEC for the Nineties, SECURITY TRENDS and IMPACTS and TECHNOLOGY SECURITY". These forums have consistently attracted key senior management attendees from the government, industrial and academic elements of the Intelligence Community.

In January, this year, SASA implemented its Security Support Program. Under this program, SASA is now prepared to receive from its members, on a non-attribution basis, generic unclassified industrial security issues and problems for appropriate action.

Individual and Group memberships have increased each year at a gratifying rate, underscoring the growing recognition accorded SASA. Particularly notable is the increase in the individual memberships among U.S. government personnel.

SASA is a non-profit organization operated by its members through an elected Board of Directors and Officers who manage its affairs and programs in accordance with its by-laws. The activities of the association, and other topics of interest to the Intelligence Community are reported in its newsletter — COLLOQUY.

Guests Attending

Col. and Mrs. Robert T. Agee, USA	Mr. and Mrs. James Hirsch
Mr. Craig Alderman, Jr.	Mr. and Mrs. Martin Hurwitz
Mr. and Mrs. Duane Andrews	Mr. Jared Irvine
Mr. and Mrs. Robert Arndt	Mr. and Mrs. Barry Kelly
Mr. and Mrs. David L. Austin	Mr. and Mrs. William Kennedy
Mr. Lawrence Ayers	Dr. and Mrs. Sidney Kissin
Mr. Richard Baer	Mr. William Korink
Mr. and Mrs. Charles C. Baggett	Mr. and Mrs. Ted Krivoruchka
Dr. William O. Baker	Mr. William Lackman, Jr.
Mr. and Mrs. Eugene J. Becker	The Honorable and Mrs. Robert E. Lamb
Mr. and Mrs. Junius Berger	Mr. and Mrs. John Lane
Mr. and Mrs. Frederick J. Berghoff	Mr. and Mrs. Meyer Levin
Mr. and Mrs. William Black	Mr. and Mrs. Morris B. Levine
Mr. and Mrs. James Boginis	Brig. Gen. and Mrs. Robert H. Ludwig, USAF
Mr. and Mrs. Jerry Bone	Mr. and Mrs. David Major
Mr. and Mrs. John A. Bross	Dr. and Mrs. William T. Marquitz
Vice Adm. and Mrs. E. A. Burkhalter, USN (Ret)	Rear Adm. and Mrs. James McFarland, USN
Mr. and Mrs. Julian Caballero	Mr. and Mrs. Allan D. McKelvie
Mr. and Mrs. David O. Cooke	Mr. and Mrs. Bernard McMahon
Mr. Thomas Cosgrove	The Honorable and Mrs. John McMahon
Mr. George Cotter and Ms. Wendy Strahlman	Mr. and Mrs. Cord Meyer
Mr. and Mrs. James Cover	Mr. and Mrs. Carl Miller
Mr. William P. Crowell, Jr.	Mr. Donald Miller
Mr. Kenneth de Graffenreid	Ambassador and Mrs. Hugh Montgomery
Ms. Mary Evelyn Dean	Leonard E. Moodispaw, Esq.
